The MAILING DATE of this communication appears on the cover sheet with the correspondence address All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS. This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.			
1. This communication is responsive to 10/20/05.			
2. The allowed claim(s) is/are <u>1-22</u> .			
3.			
Attachment(s) 1. Notice of References Cited (PTO-892) 2. Notice of Draftperson's Patent Drawing Review (PTO-948) 3. Information Disclosure Statements (PTO-1449 or PTO/SB/O Paper No./Mail Date 4. REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: With regard to claims 1-8, 16 and 17 the prior art of record does not disclose or fairly teach a low pass filter for compensating wire bond inductance. With regard to claims 9-12, 20, 21 and 22, the prior art of record does not disclose or fairly teach a transmission path including on the upper surface of the substrate, a bonding pad connected to a first transmission line itself connected to a transition pad and, on the lower surface of the substrate, a second transmission line connected to the transition pad by a via through the substrate; a wire bond extending from the bonding pad to the die pad; and a portion of the upper surface ground plane and the lower surface ground plane connected by vias defining opposing walls on either side of the transmission path for signal isolation. With regards to claim 13, the prior art of record does not disclose or fairly teach the lower surface ground plane and the second transmission line terminate proximate an edge of the substrate to facilitate probing. With regard to claims 14 and 15, the prior art of record does not disclose or fairly teach a transmission path including on the upper surface of the substrate, a bonding pad connected to a first transmission line and, on the lower surface of the substrate, a second transmission line electrically connected t the first transmission line; a portion of the upper surface ground plane and the lower surface ground plane defining structure on either side of the transmission path for signal isolation; and the upper surface ground plane surrounding the bonding pad and the first transmission line. With regard to claims 18 and 19, the prior art of record does not

disclose or fairly teach a die located on a ground structure and the ground structure including opposing member on either side of the transmission path for signal isolation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kimberly E. Glenn whose telephone number is (571)-272-1761. The examiner can normally be reached on Monday-Friday 7:30 to 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Pascal can be reached on (571)-272-1769. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
